

Enrollment for Home-Schooled Students

The State has changed the curriculum that can be offered to home-schooled students. These students may enroll and attend Fairview Area Schools only for nonessential elective courses. The instruction must be scheduled to occur during the regular day. Examples of nonessential elective courses include band, art, computers, life skills, career and technical education, vocational education, physical education, driver's education, and advanced placement level courses.

Please contact Mr. Rick Handrich, Guidance Counselor, at 848-7008 for further information.
